## What is the Teacher's Lounge?

The Teacher's Lounge is a section of MathAmaze that is exclusively reserved to teachers. It lets them create rooms inside MathAmaze for their students to play into. The teacher has control over which subjects of Mathematics are gonna be covered by the questions asked in these rooms and much more. The teacher's students can then find these rooms in the section "My class" inside MathAmaze. MathAmaze will compile stats about the games played in these rooms so that the teacher can see which student played, how many times and for how long, what was the success rate of each student, which questions was missed the most, etc.
